PANACEO
WORKS NATURALLY FREEING

We free ourselves everyday of toxins

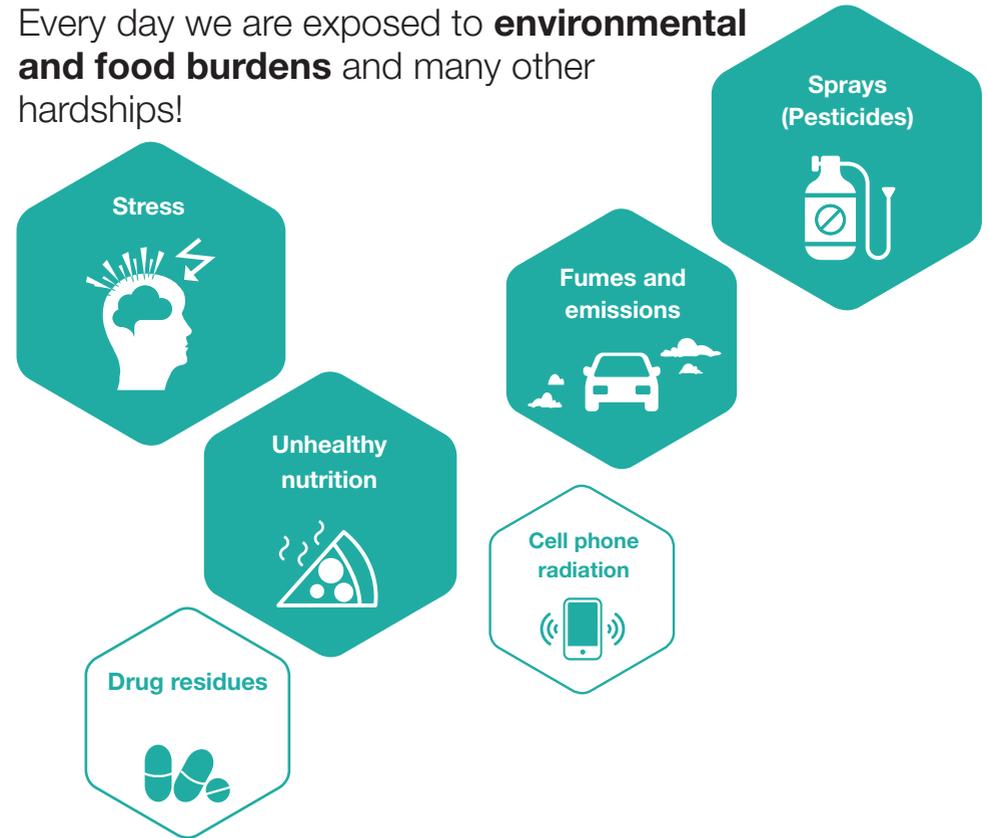

The human organism is increasingly burdened - at the same time, there is increasing performance pressure in today's work environments. Therefore, what becomes more and more important:

Your Health!

Vitality and zest for life are the visible expression of an optimal supply of the body cells. The human body consists largely of water and is comparable to a biotope. If the biotope is pure and clear, it can transport valuable nutrients and develop a beautiful, healthy flora. If the **human body is free of toxins**, it can better absorb and process high-quality vital substances.

Every day we are exposed to **environmental and food burdens** and many other hardships!

According to medical research, the following symptom complexes can be caused by the confrontation of our intestine with pollutants from our food, the environment and metabolism:

- **Gradual drop in performance**
- **Fatigue & downsiness**
- **Concentration disorders**
- **Sleep disorders**
- **Higher susceptibility to infection**

Since these symptoms can have many causes, always consult a trusted doctor and pharmacist in all health issues or complaints!

Why detox?

According to the WHO, 25% of all diseases and deaths in the EU are due to environmental pollutants.*

*WHO 2015 Fact Sheet

Toxins have to get out!

Every contribution to rid the body of these burdens counts; such as: adequate exercise, healthy diet and work-life-balance.

PANACEO Basic-Detox can bind toxins such as heavy metals (lead, arsenic, cadmium, chromium, nickel) and ammonium in the gastrointestinal tract even before they enter the organism through the intestinal wall and endanger your health.

At the same time important minerals such as magnesium, calcium, sodium and potassium are released to the body.

„The **daily physical detoxification and a healthy lifestyle** have become **more important** today in the fight against the exploding civilization diseases (such as „gradual drop in performance“, fatigue and drowsiness, difficulty concentrating and sleeping and increased susceptibility to infections)!“

Dr. med. Ilse Triebnig

General practitioner, specialist in surgery
18 years of experience with PMA zeolite-clinoptilolite in over 2,500 patients

Our contribution to your well-being

PANACEO Basic-Detox

Detox: support of detoxification through the binding of environmental and food toxins in the gastrointestinal tract*

Strengthening: support of the immune system

New energy: positive influence on vitality, well-being and health

Did you know?

70%
of all immune cells are found in the intestinal wall

Stay healthy!
Less pollutants contribute to more health

100%
all natural

* Principle intended use:

To support the detoxification and strengthening of the intestinal wall barrier through the binding of heavy metals (lead, cadmium, arsenic, chromium and nickel) and ammonium in the gastrointestinal tract.

Scientifically researched!

For 15 years, PANACEO has been researching the positive properties of PMA zeolite together with scientists and universities and is constantly continuing to developing it further. PANACEO also has research contracts at various European universities.

In 2015, a widely acclaimed randomized placebo-controlled Double-blind study (gold standard study) was published with adequate statistical evaluation. Under the direction of Prof. Mag. DDr Manfred Lamprecht, the positive effects of PMA zeolite were scientifically proven in terms of strengthening the intestinal wall barrier and preventing leaky gut. The results were published in a prestigious medical journal.

It has been scientifically proven that the unique PMA zeolite, through its ability to bind contaminants in the gastrointestinal tract, can strengthen the vital intestinal wall barrier.

Content & Application

Powder

Also available with natural lemongrass flavor

100 g powder contains	amount
PMA zeolite	90 g
Dolomite	10 g
<small>(of which calcium is 2,24 g; Magnesium 1,28 g)</small>	

RRP € 39,90 / 200 g powder
RRP € 59,90 / 400 g powder

Directions of use:

Take **one leveled scoop, 2 – 3 times a day**, during meals with a glass of water (about 100 ml).

For effect and adverse effects of this medical device, consult the leaflet, doctor or pharmacist.

Capsules

1 capsule contains	amount
PMA zeolite	369 mg
Dolomite	41 mg
<small>(of which calcium is 9,18 mg; Magnesium 5,23 mg)</small>	
Capsule: Cellulose	90 mg

RRP € 31,90 / 180 capsules

Directions of use:

Take **2 – 3 capsules 3 times a day** during meals with a glass of water (about 100 ml).
